LOOKING FOR A HVAC TECHNICIAN

SALARY - Negotiable based on experience (please reply with your expectations)

CONTRACT - Temporary (6 months). Possibility of permanent based on performance

START DATE - ASAP

LOCATION - Midland & Finch

ABOUT US:

P.C. Control Systems Inc. was founded in 1990 and specializes in providing heating and cooling services for the Residential and Commercial Industries. The company started as a family business, and we're still family owned and operated today. We have since grown to a thriving mid-size company, but one thing that has not changed, is our 100% commitment to our clients.

Our motto is simple: If our clients are happy, we are happy.

<http://www.pccontrolhrac.com/about.php>

MAIN TASKS:

- Install furnaces and AC units in the residential and commercial industries
- Ability to perform service calls, including diagnosing issues and perform repairs
- Driving to various locations within the GTA for order and pickup of materials (valid driver's licence is required)
- Analyze blue prints to determine quantity of materials needed

REQUIREMENTS:

- Licensed - Gas 1/Gas 2 and or Refrigeration 313A/313D
- Minimum one year of HVAC working experience
- Prefer residential, commercial and industrial experience
- Prefer ability to work independently and or lead a small team
- Good English communication skills, Mandarin and Cantonese speaking is an asset

TO APPLY:

Please reply with your resume and your salary expectations. Only qualified applicants will be contacted.
